

Combining the power of Reading A-Z and Raz-Kids in one interface!

A Better Blended Learning Experience

Raz-Plus includes the features and benefits of both Reading A-Z and Raz-Kids to deliver a blend of developmentally appropriate teacher-led instruction, independent practice, and comprehensive assessment to help improve the reading skills of every student, at every level. With an extensive library of reading resources available in printable, projectable, online, and mobile formats, Raz-Plus strengthens the connection between what is being taught and what students are practicing.

Key Features

- **50,000+** reading resources, lessons, and activities that support reading development for all learners.
- **3,000+** leveled books and additional reading resources available in printable, projectable, online, and mobile formats.
- **On-page assignment capabilities** allow teachers to assign digital resources to the whole class, small groups, or individual students.
- **Online, data-driven reports** show individual student and class-wide progress to help determine future instruction needs.

Learning A-Z's Blended Learning Cycle

Differentiated Instruction

Raz-Plus provides the printable and digital resources teachers need to deliver effective instruction and practice opportunities for whole-class, small-group, and individual learning. With thousands of leveled books available at 29 unique reading levels, teachers have everything they need to differentiate reading instruction and promote key 21st century skills.

Anywhere, Anytime Learning

With thousands of leveled books and passages available in online and mobile formats, Raz-Plus makes it easy for students to access developmentally appropriate content to practice their reading in school and at home.

Formative Assessment

Raz-Plus offers an extensive collection of assessment tools in multiple formats. Online assessments and real-time reporting allow teachers to place students at the appropriate reading level, monitor reading progress, and inform future instruction.
